Tekron Communication Systems
BROADCAST PRODUCT SELECTOR

SIGNAL MONITORING SWITCHING CONTROL	Models in Grey are available on request	RSS-2L	RSS-3L	RSS-6L	RSS-2R	RSS-2B	RSS-4Eng	RSS-2VAS	RSS-2VD	RSS-2ASI/SDI	RSS-6ASI/SDI	RSS-2AS	MX-216R	MX-16R	RMS-2FS	RMS-2AS	RMS-2V	TRC-144C	TRC-24MC
						3X1	5X1	3X1	3X1			3X1	16X2	16x1					
	Number of Switches per Chassis Scalable Switching Matrix	2	3	6	1	1	1	1	1	2	6	1	256X2	256X1				144	24+24
Automatic/Controlled	**APPLICATIONS**																		
RSS - Switching Products	**Signal Redundancy in Transmission Site**																		
	Studio Broadcast Channel Feed					X		X	X	X									
	Broadband transport Feed					X				X									
	Satellite Feed	X		X															
	IF Satellite Uplink				X														
	Signal Redundancy for ENG						X												
	Local Origination Channel Automation					X	X												
	SIGNAL TYPE																		
	RF Broadband Feed Applications																		
	Satellite L-Band	X	X	X	X														
	Digital Channel Applications																		
	Analog Video-Audio					X		X	X										
	DVB-ASI - SDI - SMPTE310M									X	X								
Scheduled/Controlled	**Scalable RF Matrix switching Systems**																		
MX - Switching Products	Broadband to 1GHz												X	X					
Monitoring/Control																			
RMS - Signal Monitoring	**RF Channel monitoring and alarm**																		
	FM & RDS Transmitter														X				
	AM / MW Tranmitter															X			
	TV Tranmitter																X		
TRC - Monitor & Control	**Site Monitoring Alarm & Control**																		X
	Scheduling Monitor & Control																		X
	Contact Scheduling & Control																	X
